Available Satellites			Required Hardware	
Ku-Band	RX	TX	Minimum Antenna	Minimum BUC
	Polarity	Polarity		
SatMex 6	Vertical	Horizontal	1.2m	3 Watt
Galaxy 27	Horizontal	Vertical	1.2m	3 Watt
Telstar 14	Vertical	Horizontal	1.2m	3 Watt

Antenna and BUC size are subject to final link budgets by IsoTropic Networks.

IsoTropic Networks, Inc offers additional services such as VoIP connections (with our own VoIP Soft Switch), Maritime Services, Auto-Pointing Antennas and Services, VNO, MNO, VLAN, VPN, Dynamic CIR, and solutions for Citrix, Video Conferencing and other streaming protocols.

Please contact us to discuss your specific requirements with a sales engineer.

Terms:

- Shared Service pricing is based on a minimum three year contract term. Penalties for early cancellation will apply. Shorter Service terms are available at slightly higher fees.
- Commissioning Fee: \$650.00 per site one-time.
 - The commissioning fee will be discounted by \$500.00 upon the purchase of a bundled hardware package and a contracted service plan from IsoTropic Networks, Inc.
 - The commissioning fee will be discounted by \$400.00 for customers moving from another iDirect HUB operator, contingent upon customer providing evidence of prior HUB activation.
- Service cannot be initiated without a properly executed contract and payment for first month's service, commissioning fee and Deposit.
- Deposits are applied to the last month of each contract. Service may be suspended for late payment, irrespective of any Deposits on account. Payment is due on the first of each month for Service performed during that month.
- Payment Method – Preferred payment method is via wire transfer to IsoTropic Networks account. IsoTropic may accept credit card payment at its sole discretion. A handling fee of 10% will be charged for each credit card transaction.
- Fair Access Policy – Although IsoTropic does not enforce a strict FAP, use of the bandwidth in excess of the specific plan will generate a review of each sites monthly service fee. Customer will have 7 days to adjust the service plan (in agreement with IsoTropic). If no agreement can be reached, IsoTropic retains the right to throttle customers usage and/or cancel the contract for the specific site(s) in question.
- VoIP service will require the purchase of Committed Information Rate (CIR). IsoTropic does not make any representations that VoIP will operate correctly without the purchase of CIR.
- Customer may upgrade or downgrade the service level on the first day of any month. Downgrades will be charged a one-time fee of \$40.00/site/occurrence. IsoTropic agrees to waive any Upgrade fees. Upgrades and Downgrades will not be made in the middle of a calendar month.

The above prices, terms and conditions are proprietary to IsoTropic Networks and are not to be divulged to sources outside of IsoTropic qualified distributor. This proposal is subject to availability of quoted hardware. Unless otherwise stated herein, the pricing contained herein will remain valid for 30 days and is exclusive of any applicable local, state, federal or foreign government taxes, licensing, and permitting fees, which are the responsibility of the customer. Thereafter, IsoTropic Networks will consider the validity of this document solely at its discretion.
